

# The Journal of Experimental Biology

EDITED BY

J. GRAY

ASSISTED BY

THE HON. SECRETARIES, SOCIETY FOR  
EXPERIMENTAL BIOLOGY

VOLUME XXVI

CAMBRIDGE

AT THE UNIVERSITY PRESS

1949-50

*Published for the Company of Biologists, Limited*

*Printed in Great Britain at the University Press, Cambridge*

*(Brooke Crutchley, University Printer)*

*and published by the Cambridge University Press*

*Cambridge, and Bentley House, London*

*Agents for Canada and India: Macmillan*

# CONTENTS

No. 1. MAY 1949

PAGE

|  |     |
|--|-----|
| J. D. SMYTH. Studies on tapeworm physiology. IV. Further observations on the development of <i>Ligula intestinalis in vitro</i> . (With Plate 1 and Five Text-figures)                   | 1   |
| J. SHAW AND L. C. BEADLE. A simplified ultra-micro Kjeldahl method for the estimation of protein and total nitrogen in fluid samples of less than 1.0 $\mu$ l. (With Three Text-figures) | 15  |
| D. A. PARRY. The swimming of whales and a discussion of Gray's Paradox. (With Plates 2 and 3 and Three Text-figures)   | 24  |
| ERIC PONDER. Shape and shape transformations of heated human red cells. (With One Text-figure)   | 35  |
| J. A. RAMSAY. The osmotic relations of the earthworm. (With Two Text-figures)  | 46  |
| J. A. RAMSAY. A new method of freezing-point determination for small quantities. (With Two Text-figures)   | 57  |
| J. A. RAMSAY. The site of formation of hypotonic urine in the nephridium of <i>Lumbricus</i> . (With Three Text-figures)   | 65  |
| W. S. BULLOUGH. The effects of high and low temperatures on the epidermal mitotic activity of the adult male mouse, <i>Mus musculus</i> L. (With Three Text-figures)                     | 76  |
| W. S. BULLOUGH. The relation between the epidermal mitotic activity and the blood-sugar level in the adult male mouse, <i>Mus musculus</i> L. (With Ten Text-figures)                    | 83  |
| LORD ROTHSCHILD. The metabolism of fertilized and unfertilized sea-urchin eggs. The action of light and carbon monoxide. (With One Text-figure)  | 100 |

No. 2. AUGUST 1949

|  |     |
|--|-----|
| W. RUSSELL HUNTER. The poisoning of <i>Marinogammarus marinus</i> by cupric sulphate and mercuric chloride. (With Four Text-figures)                                   | 113 |
| R. A. BEATTY. The pigmentation of cavernicolous animals. III. The carotenoid pigments of some amphipod crustacea   | 125 |
| C. J. BANKS. The absorption of water by the eggs of <i>Corixa punctata</i> Illig. (Hemiptera-Corixidae) under experimental conditions. (With Two Text-figures)         | 131 |
| ELLEN THOMSEN. Influence of the corpus allatum on the oxygen consumption of adult <i>Calliphora Erythrocephala</i> Meig. (With Six Text-figures)                       | 137 |
| V. B. WIGGLESWORTH. The utilization of reserve substances in <i>Drosophila</i> during flight. (With Four Text-figures)   | 150 |
| LORD ROTHSCHILD AND M. M. SWANN. The fertilization reaction in the sea-urchin egg. A propagated response to sperm attachment. (With Plates 4-6 and Three Text-figures) | 164 |

|   | PAGE |
|---|------|
| LORD ROTHSCILD. The fertilization reaction in the sea-urchin egg. A note on diffusion considerations. (With Two Text-figures) . . . . . | 177  |
| JAMES D. ROBERTSON. Ionic regulation in some marine invertebrates . . . . .   | 182  |
| BERNARD KATZ. The efferent regulation of the muscle spindle in the frog. (With Eleven Text-figures) . . . . .                           | 201  |

## No. 3. OCTOBER 1949

|   |     |
|---|-----|
| W. H. THORPE AND D. J. CRISP. Studies on plastron respiration. IV. Plastron respiration in the Coleoptera. (With Plate 7 and Twenty-three Text-figures)   | 219 |
| W. S. BULLOUGH. Age and mitotic activity in the male mouse, <i>Mus musculus</i> L. (With Six Text-figures) . . . . .                                      | 261 |
| W. S. BULLOUGH. The action of colchicine in arresting epidermal mitosis. (With Two Text-figures) . . . . .  | 287 |
| A. L. HODGKIN AND B. KATZ. The effect of calcium on the axoplasm of giant nerve fibres. (With Plate 8 and One Text-figure) . . . . .                      | 292 |
| D. M. STEVEN. Studies on animal carotenoids. II. Carotenoids in the reproductive cycle of the brown trout. (With Three Text-figures) . . . . .            | 295 |
| R. G. HARRISON AND J. S. WEINER. Vascular patterns of the mammalian testis and their functional significance. (With Plates 9 and 10 and Two Text-figures) | 304 |
| THE LATE D. A. HANSON. The influence of age and sex on 'reasoning' . . . . .  | 317 |

## No. 4. FEBRUARY 1950

|   |     |
|---|-----|
| P. H. TUFT. The structure of the insect egg-shell in relation to the respiration of the embryo. (With Two Text-figures) . . . . .                                 | 327 |
| E. BURSELL AND D. W. EWER. On the reactions to humidity of <i>Peripatopsis moseleyi</i> (Wood-Mason). (With Seven Text-figures) . . . . .                         | 335 |
| J. GRAY AND H. W. LISSMANN. The kinetics of locomotion of the grass-snake. (With Sixteen Text-figures) . . . . .  | 354 |
| H. W. LISSMANN. Rectilinear locomotion in a snake ( <i>Boa occidentalis</i> ). (With Seven Text-figures) . . . . .  | 368 |
| MICHAEL BEGG AND FORBES W. ROBERTSON. The nutritional requirements of <i>Drosophila melanogaster</i> . . . . .  | 380 |
| LORD ROTHSCILD. Counting spermatozoa. (With Three Text-figures) . . . . .   | 388 |
| LORD ROTHSCILD. The physiology of sea-urchin spermatozoa. Catalase. (With Five Text-figures) . . . . .  | 396 |
| LORD ROTHSCILD. A note on the catalase content of sea-urchin eggs. (With One Text-figure) . . . . .   | 410 |
| C. L. SMITH. Seasonal changes in blood sugar, fat body, liver glycogen, and gonads in the common frog, <i>Rana temporaria</i> . (With Ten Text-figures) . . . . . | 412 |
